### # Effects and the Problems

Effects your students have gained	Problems & Points for further improvement
The students recognized local cultures of their own and also learned about Japanese culture.	It was difficult to communicate and use the forum. Most of the time we could not get response on forum, from other partner' s school.  Time difference should be managed to share the views.

### # Have you made your activity open in your school or in your local area? How was their reaction or reputation?

PR you did inside/out of your school	Reaction/reputation from around
We have uploaded our activities on our school' s website for everyone. We have pasted relevant material of this activity on soft/display boards in school.	Teachers and students are very pleased with the involvement in this project. Students are very happy about their international activity.
