### # Effects and the Problems

Effects your students have gained	Problems and ideas for further improvement
The students recognized local cultures of their own and took more pride in them and also learned a lot about Japanese culture. Students got the experience of VC interaction and writing communication.	It was difficult to communicate in English because Japanese students were shy to speak English. We got the half-painted mural in February and practically didn't have time to paint and display it at school.

### # Have you made your activity open in your school or in your local area? How was their reaction or reputation?

We informed the local authorities of our exchange and we have the material on our school website.	Teachers and students' parents were very pleased with the involvement in this project. Students were very proud of their international activity.
